

Overview of Permitting Process

- Two permits are required
 - COE (US Army Corps of Engineers)
 - DEP (Maine Department of Environmental Protection)
- MTA is required to show the need for this project
- Time frame to receive permits:
 - 18 to 24 months
- Phases:
 - Phase 1.
 - We are at the beginning stages of this phase
 - Phase 2.
 - Filing of actual permit
 - Notification to:
 - Abutters
 - Town of York
 - Conservation Commission
 - Media
 - We will have 30 days to respond to this Notice

It is vital to continue to generate and provide hard-core data that counters the MTA's statement of need. We must substantiate the negative human and environmental impacts.

See following pages that outline the details.
